1. 제작 정보

PPT 목표

누구나 쉽게 따라 하며 서버를 구축할 수 있도록,
간단하고 직관적인 구성으로 제작하였습니다.

코드 커뮤니티 : 아팻찌

코딩 학습 중 마주하는 다양한 궁금증을
신속히 해결하고, 작성한 코드가 다른
개발자에게도 도움이 되도록 지원하기 위해
제작되었습니다.

누구나 자유롭게 코드를 업로드하고
서로의 의견을 활발하게 교류할 수 있는
커뮤니티 환경을 목표로 제작하였습니다.

제작 : 프레임워크

*리액트

사용자 인터페이스를

Apache Lounge
Webmasters

Apache Lounge is all about the Apache Web Server provided by the Apache Software Foundation (ASF) HTTPD Server Project. Apache Lounge has provided up-to-date Windows binaries and popular third-party modules for more than 15 years. We have hundreds of thousands of satisfied users: small and big companies as well as home users.

Join our ever-growing user-to-user community forum and talk with other webmasters and programmers who are working together and learning from each other's experiences with the Apache HTTPD Server. Although the forum is primarily for Windows environments, it is also about Apache in general. All flavors are welcome, like Linux, Mac and Raspberry.

Please help fellow Apacherians and share your knowledge. Thanks!

Forum Index

	Posts	Last Post
News & Hangout News and announcements and for anything else which doesn't fit in the forums below. Site feedback, random talk, whatever, are welcome. General chat about anything that goes, a good place to introduce yourself and say hi, tell a Joke, or just relax.	1572	Wed 02 Apr '25 9:50 K Staffen
Apache Need help or have questions about the Apache Server? Put them here, no question too simple! And please help fellow Apacherians. Here goes 2.2 as well as 2.4. For building, see below.	22253	Tue 22 Apr '25 21:48 K tangent
Third-party Modules This is the place to discuss third-party modules like mod_security, mod_jk etc.	4356	Thu 24 Apr '25 10:17 K Otomatic
Other Software Discuss installation and issues with other software, like Perl, Php, MySQL, Tomcat etc. For example, installing PHP under Apache goes here as well as installing a CMS like Joomla, Wordpress, a Forum like phpBB etc. For programming/coding see forum below.	5948	Tue 18 Mar '25 9:38 K Otomatic
Coding & Scripting Corner Forum for discussing coding in Perl, PHP, HTML, JavaScript, Ajax etc. Also when you made use a script you want to share, post it here.	1194	Wed 01 Jan '25 6:21 K Bray78
How-to's & Documentation & Tips Do not hesitate to post your knowledge! Do not post issues here.	572	Tue 08 Apr '25 20:29 K tangent
Building & Member Downloads This is the place to discuss about writing, compiling, debugging, testing and experimenting with the Apache and Modules source code. Building other software like php goes here too. Also Apache and Modules builds for you to download from ApacheLounge members goes here.	3953	Mon 30 Dec '24 10:30 K nosk124
Webmaster Tools & Utilities Discuss webmaster tools and utilities, like Statistics, Monitoring, Logfile Analyzers, Admin Gu's etc. When you have/know/made a tool, please let us know here.	336	Sun 23 Mar '25 16:28 K noma303
Hardware & Networking This is the place to discuss Hardware and Network related.	663	Tue 26 Nov '24 12:45 K James Blong

Apache 2.4 VS17 Windows Binaries and Modules

Apache Lounge has provided up-to-date Windows binaries and popular third-party modules for more than 15 years. We have hundreds of thousands of satisfied users: small and big companies as well as home users. Always build with up to date dependencies and latest compilers, and tested through. The binaries are referenced by the ASF, Microsoft, PHP etc. and more and more software is packaged with our binaries and modules.

The binaries, are build with the sources from ASF at <http://httpd.apache.org>, contains the latest patches and latest dependencies like zlib, openssl etc. which makes the downloads here mostly more actual then downloads from other places. The binaries **do not run** on XP and 2003. Runs on: 7 SP1, Vista SP2, 8/8.1, 10, 11 Server 2008 SP2 / R2 SP1, Server 2012 / R2, Server 2016/2019/2022.

Build with the latest Windows Visual Studio C++ 2022 aka VS17. Has improvements, fixes and optimizations over VS16 in areas like Performance, MemoryManagement, New standard conformance features, Code generation and Stability. For example code quality tuning and improvements done across different code generation areas for "speed". And makes more use of latest processors and supported Windows editions (win7 and up) internal features.

VS17 is backward compatible, That means, a VS16/VS14 module can be used inside the VS17 binary.

Be sure you installed latest 14.42.34438.0 Visual C++ Redistributable Visual Studio 2015-2022 : [vc_redist_x64](#) or [vc_redist_x86](#) see [Redistributable](#)
